OBJECTIVE:

Excited to pursue a career leveraging my Business/IT degree focused on problem solving, and analytics.

EDUCATION

Virginia Polytechnic Institute, Pamplin College of Business

Blacksburg, VA

Bachelor of Science in Business

May 2021

Major: Business/Computer Information Systems (Decision Support Systems)

Department GPA: 3.21

WORK EXPERIENCE

Interos, Inc

Arlington, VA

Data Analytics Intern

June 2020 – August 2020

- Quickly learned Snowflake, a cloud-based data warehouse, to manage and analyze data for several projects.
- Used Snowflake to catalogue supply chain risk data from CreditSafe for 30 countries.
- Produced a unified data schema which enabled users to quickly query a single dataset.
- Led the research of all G2 data and queried survey results to create supply chain maps.
- Developed a series of SQL queries that returned relationships based on survey data.
- Collaborated with my manager on the USASpending project to enhance the ability to replicate website data across Snowflake.
- Developed a series of SQL queries and analytical skills that increased our internal processing time by 50%.

Phoenix Oversight Group LLC

Arlington, VA

Product Development Intern

June 2019 – August 2019

- Advanced company's product design and product management by using agile product implementation.
- Managed other interns to produce a white paper for Phoenix's clients about effective product management.
